

WARRANTY REFRIGERANT ALLOWANCES

The refrigerant type stamped on the model and serial number tags are the only approved refrigerants for in or out of warranty machines.

- Recover all existing refrigerant when servicing.
- Remote system warranty service requires the reuse of existing refrigerant when not contaminated.
- The cost of handling and recycling refrigerant is covered by the miscellaneous allowance built into our labor allowances.

These allowances are for *new or reclaimed refrigerant only*. (Reclaimed is an off-site process that is lab tested to verify that it meets ARI Standard 700-88.) This does **not** apply to recycled refrigerant.

<u>New Refrigerant</u>	<u>Allowance Per Pound</u>
R404A	\$12.50
R134A	\$ 7.00
R22	\$ 9.00
R401A	\$11.00
