

FUEL ISLAND VALET

Royston's Fuel Island Valet shown left, with optional sign holder

PROMOTION AT THE PUMP

Enhance your customers' experience when re-fueling and pump up your profits with Royston's Fuel Island Valet, the merchandiser that combines waste disposal, windshield service, hand sanitizer, paper towel dispenser and optional signage in a compact, durable and secure unit. Get extra mileage out of fuel islands when you promote in-store products and special promotions. The multitasking valet works hard to give you top value.

FEATURES

- Large waste can to maximize capacity and minimize service needs
- Paper towel dispensing from bulk rolls to maximize customer service and minimize maintenance
- Durable, exterior-grade powder coating available in a wide range of colors to meet your brand requirements
- Signage opportunities for in-store promotions and customer communications
- Compact footprint fits easily on most fuel islands
- Interior ground anchors keep unit from being moved or removed, protecting your investment
- Dual-sided features include windshield washer stations, waste, towels and hand sanitizer for easy access from either side of the pump
- Durable cold-rolled steel and aluminum construction for a perfect balance between strength, weight and upkeep
- Waste can with locking access door

Double Dipping: Windshield service from both sides of the pump for maximum customer convenience

Smart Size: Large waste can to minimize service needs

Distinctive Dispenser Design: Unique design prevents theft of towel stock and lets sheets pull smoothly every time

Towel Stock Locks: Inside view of towel storage and loading with lockable access to prevent pilferage
