Koolaire KT-0420
Ice Kube Machine on K420 Bin

Koolaire by Manitowoc ice machines are designed, developed and tested by Manitowoc engineers to provide great ice production, energy efficiency and reliable service at an affordable price.

Performance/Features/Benefits

- Produces up to 457 lbs (207 kg) of ice per day**
- Performance certified by the Air Conditioning, Heating and Refrigeration Institute (AHRI)
- Energy Efficient models - visit EnergyStar.gov to view all Energy Star qualifying models
- Highly efficient electro-less nickel plated copper evaporators made in Manitowoc WI, USA
- Simple operation - only one control, three positions ON/OFF/CLEAN
- High-Tech exterior with smudge and fingerprint resistant stainless-like finish
- Better for the environment. Uses R410A refrigerant which lowers global warming potential by 48%
- Backed by the industry's best Manitowoc distribution network and service agents

Built for Easy Sanitation

- Easy access front facing evaporator
- One-touch remedial cleaning; requires minimal interaction; just add chemical and let the machine do the rest. No ice removal from bin needed. (Use Manitowoc De-scaler and Sanitizer only)
- For detail cleaning; all food zone components removable by hand (no tools required). Fast and easy
- All white plastic interior, no exposed tubes or wires, smooth rounded corners for fast easy wipe downs
- The food zone is sealed from above and on the back of the door panel with commercial grade rubber gaskets
- Alpha San anti-microbial agent molded in selected components
- Additional sanitation protection available with CleanAir™ packs to control the growth of bacteria, fungi and slime inside the food zone

**based on 70F air / 50F water

Ice Machine Electric

115/60/1 standard
(also available in 208-230V)

Minimum circuit ampacity:

Air-cooled: 11.3 (115V) 6.2 (208-230V)
Water-cooled: 10.6 (115V) 5.8 (208-230V)

Maximum fuse size:

Air Cooled: 20 Amps (115V) 15 Amps (208-230V)
Water cooled: 20 Amps (115V) 15 Amps (208-230V)

Specifications

BTU Per Hour:
5,400 (average),
and 6,300 (peak)

Refrigerant:

R410A CFC - Free
Lowers global warming
by 48%

Operating Limits:

- Ambient Temperature Range:
40° to 110° F (4.4° to 43.3° C)
Water Temperature Range:
40° to 90° F (4.4° to 32.2° C)
- Water Pressure Ice Maker
Water In:
Min. 20 psi (137.9 kPa)
Max. 80 psi (551.1 kPa)

Ice Shape

HALF KUBE

$\frac{3}{8}'' \times \frac{1}{4}'' \times \frac{7}{8}''$
(.95 x 2.86 x 2.22 cm)

$\frac{3}{8}'' = 100\%$

KUBE

$\frac{7}{8}'' \times \frac{7}{8}'' \times \frac{7}{8}''$
(2.22 x 2.22 x 2.22 cm)

$\frac{7}{8}'' = 100\%$

KT0420 on K-420 Storage Bin

Required Clearance:

Top/Sides: 8" (20.3 cm)
Back: 5" (12.7 cm)

Water cooled condenser water usage/100 lbs. or 45.4 Kg. of ice: 160 gals. / 606L.

Space-Saving Design

KT0420
K-420

Height	71.50" 181.61 cm
Width	22.00" 55.88 cm
Depth	34.00" 86.30 cm
Bin Storage	383 lbs. 173 kgs.

Measurements with bin legs at 6.00" (15.24cm).
Adjustable bin legs 6.00" to 8.00" (15.24cm to 20.32cm). Bin capacity is based on 90% of the volume x 33 lbs/ft³ average density of ice.

Order ice machine and bin separately
★ indicates Energy Star 3.0 certified

Shipping Weight:

Air-cooled: 137 lbs (62kg)
Water-cooled: 138 lbs (63 kg)

Accessories

Dispenser Bin Thermostat Kit

Reduces condensation when used with dispensers.

Top Air Discharge Kit

Convert air flow to rear in-take / top exhaust.

Arctic Pure® Water Filters

Reduces sediment and chlorine odors for better tasting ice.

Clean Air Pack

Chlorine dioxide sachet to inhibit bacteria growth.

Welbilt reserves the right to make changes to the design or specifications without prior notice.
